Kristopher Grant always plans to stay out of trouble during the day while he's mortal, to play it safe so that when the night comes and his heart stops beating, he can finally start living; but when does anything ever go according to plan? As an endangered species Kris knows it's never a good thing when people start murdering the monsters. All he wants to do is run his territory in South Florida with as few complications as possible. When he encounters three young siblings running for their lives, complicated takes on a whole new meaning. Kris knows he shouldn't get involved. During the day he can be killed just as easy as any human and Kris learned a long time ago that not all monsters come out at night. Going against his instincts, he is forced to use every ally in his arsenal - supernatural and human alike - to protect the three runaways. This is the first book in a series surrounding the Vampire, Kris Grant, as he spends his immortal life trying to do what he does best, survive. Read DAYLIGHT HOURS and see Vampires in a whole new light.
